## URBAN SANCTUARY

THE SETAI SPA, NEW YORK CITY

## Home Sweet Spa

Skiers on the hunt for a slopeside abode can buy into the ultimate in residential luxury at One Steamboat Place, a luxury community of 80 furnished residences located at the base of the gondola in the heart of Mountain Village in Steamboat Springs, CO. In addition to several high-end amenities, they also have a place to ease the aches and pains from a day on the slopes at **The Spa at One Steamboat Place**, which was created by developer Timbers Resorts with the help of Francis & Alexander spa consulting. The 10-treatment-room spa features a variety of massage, skincare, hair and scalp, and nailcare services, which are performed using a signature line of lotions and massage oils called Open Space. The products were inspired by the surrounding Yampa Valley and created for the property by Prima Fleur to bring the outdoors in using ingredients like fresh fruits, mountain flowers, and spring water. Other amenities include herb-infused steam rooms; couples' massage rooms; and an in-residence treatment menu, all of which make spa-goers feel right at home.—J.K.

A variety of treatments inspired by the bounty of the Colorado mountains is available at the decadent spa (left and above) at One Steamboat Place (top), a luxury ski-in, ski-out community that features three- and four-bedroom residences.
