

INTRACEUTICALS INFUSIONS, THE PREMIER OXYGEN FACIAL LAUNCHES AT THE SPA AT ONE STEAMBOAT PLACE

Steamboat Springs, CO (December 5, 2011) – Intraceuticals is thrilled to announce the launch of its premiere oxygen facial, inhalations and take-home care products at One Steamboat Place. Intraceuticals Infusions have become the premiere oxygen facial for a simple reason: they work. It is the only treatment in the world that delivers specially formulated serums that work deep within the skin via pressurized oxygen to transform each layer, inside out. With just one treatment, skin looks undeniably younger and firmer.

The Spa at One Steamboat Place will offer the full range of treatments and take-home care products, whose results rival those of any procedure. Intraceuticals treatments available include:

- Rejuvenate Infusion Facial—promotes natural collagen and elastin production to improve skin texture and smooth fine lines and wrinkles. 60 minutes, \$180.
- Rejuvenate and Atoxylene Infusion Facial—an alternative to injections, it targets expression lines and wrinkles while re-firming and re-filling under the eye and contouring lips. 75 minutes, \$225.
- Oxygen Inhalation Therapy—Oxygen therapy is said to be one of the most powerful and efficient methods of detoxifying the body and refreshing the spirit. Available in, Peppermint, Lemon Scented Tea Tree and. 10-30 minutes, \$20-60

By delivering these proven skin-savers deeper into the dermal structure, the effects of Intraceuticals Infusion oxygen facial are supercharged, immediate and long-term:

- Stimulates cell renewal
- Strengthens collagen and elastin fibers
- Immediate and intensive hydration leaves skin fresh, radiant and with a visible, firmer lift
- Super-hydrating serums stimulate an osmotic response so skin gets steadily firmer, brighter, and refreshed within 24 hours following each treatment

The Intraceuticals Infusions cutting-edge technology sprung from extensive scientific research at leading universities in Australia. Used worldwide in medical offices to treat and visibly improve common skin problems such as acne, rosacea, premature aging and severely dry skin, Intraceuticals Infusion technology is used as an adjunct and catalyst of cosmetic lasers, surgical procedures and professional treatments such as micro-dermabrasion.

Intraceuticals Infusions and at-home care products are available only through the very best plastic surgeons, dermatologists, destination resorts and hotels, estheticians and medi-spas. Developed with leading Australian universities to address the most challenging skin conditions through breakthrough science, the treatments and products create immediate, dramatic effects and accumulative, long-term changes in skin.

The Spa at One Steamboat Place offers the luxurious, rejuvenating mind/body retreat that Steamboat has long awaited. Inspired by the region's abundant natural beauty, indulgent treatments and pampering services are as soothing as the setting. Featuring massage, skin care, scalp treatments, nail care, herb-infused steam rooms, couple's massage rooms, private locker rooms, an in-residence treatment menu and much more, The Spa at One Steamboat Place is everything you need to restore and renew your mind, body and spirit.
